

Information from the Administration Offices of Holt Public Schools
Confused by Those Wednesday Dismissal Times?
(We get mixed up sometimes, too.)

If you have access to a computer with online capability, you can always visit our website at www.hpsk12.net, and then click on the “calendar” near the top right side of the screen. The monthly calendar that pops up in the next screen will give you information on whether a specific Wednesday is “early release” (grades K-6), “late start” (grades 7-12), or a regular full day of school.

Okay...you’ve made it that far. But it’s hard to remember the dismissal times! At any page of the Holt Public Schools’ website, you’ll see tabs running across the top of the page. Click on the “Calendar” tab, and then in the brown menu bar that appears under “calendar,” click on School Times. The next page will give you start and end times at every grade level.

If you do not have access to an online computer, the office of each school building will be happy to provide you with a printed page of the school times. Each building also sends home timely information as to the Wednesday schedules. You are also welcome to call the Superintendent’s Office at 694-5715, and we’ll be happy to mail you any calendar information you may need.
